Following Disclosures During Buzenz Conspiracy Trial, Secretary of State Says Embassy Attaches Are Persona Non Grata

REPORT THAT WHITLOCK IS BARRED GETS DENIAL

Activities of Naval and Military Aides to Von Bernstorff in Connection With 'War Plots' Are Their Undoing

(Associated Press by Federal Wireles.)
WASHINGTON, December 4.—As a result of the disclosures made during the trial for conspiracy of Dr. Karl Buzenz and the three other employees of the Hamburg-American Line, disclosures which appear to connect both the naval attaché, Captain Boy-Ed, and the military attaché, Captain von Pappen, of the German embassy, Count von Bernstorff, the German ambassador, was yesterday notified by Secretary of State Lansing that the two attaches are persona non grata with the American government and their immediate recall is desired.

Whitlock Will Return
Almost contemporaneously with this request for the recall of von Pappen and Boy-Ed came a despatch from London sent out officially by the British press bureau, that the Belgian newspapers which are under the rule of the German censorship have been ordered to publish a notification to the Belgian people that the American minister to Belgium, Brand Whitlock, who is home on sick leave, is not to return to his post at Brussels.

The truth of the report thus said to have been issued in Belgium is denied at the state department, Secretary Lansing saying that no change whatever in the ministry at Brussels is under contemplation. Mr. Whitlock, says, is expected to return to his post of duty at the expiration of his present leave.

Privileges Are Forfeited.
That the activities of Captain Boy-Ed and Captain von Pappen are such that their privileges as members of the German diplomatic staff here have been forfeited was decided upon at a meeting of the cabinet yesterday afternoon, at which the evidence given in the trial of the Hamburg American conspiracy case was reviewed and the complicity of the attaches in the violation of American neutrality was agreed upon.

No statement in regard to the request for the immediate recall of the two members of his ambassadorial staff has been made public by the German ambassador, nor has anything further been said of the protest which it was stated von Bernstorff had in course of preparation for presentation to the department of state against the "harsh" treatment accorded by the federal officials to Captain Boy-Ed in the trial of Doctor Buzenz and against the manner in which they were "unnecessarily" dragging the naval attaché's name into the proceedings and the charges.

It was reported that Count von Bernstorff would base the strength of the protest he was preparing to make on the outcome of the conspiracy trial.

VILLISTA BAND KILLS AMERICAN

He Is Robbed After Capture and Then Brutally Tortured To Death

(Associated Press by Federal Wireles.)
DOUGLAS, Arizona, December 4.—An American storekeeper, captured in Sonora by a band of Villistas, was robbed and tortured to death, according to reports that have reached here. It is reported that the leader of the band told the American, before subjecting him to the torture from which he died, that "Americans now class us as bandits. In the future we will treat Americans accordingly. If they brand us as bandits, we will act as bandits."

Attorney Cunningham and two other Americans who were known to have fallen into the hands of the Villistas and who were thought to have been executed, are alive, at Nacozari, which point they reached after much suffering. They report that they were captured and robbed, but released.

Last night it was reported that the Villistas had robbed and captured the American mining camp at El Tigre. Reports from the City of Mexico state that the health conditions there are approaching the terrible. The typhus fever which made its appearance some time ago has now become a raging epidemic, the average death rate being one hundred and thirty a day from the disease.

The authorities are unable to cope with the situation. The victims of the typhus are mainly amongst the poorest and least educated class and it appears impossible to enforce any sanitary regulations or secure the cooperation of the people in the fight against the outbreak.

Ministers of Both Powers Declare That Peace Cannot Come Without Victory

Useless To Believe Germany Would Relinquish Any Territory She Now Controls

(Associated Press by Federal Wireles.)
LONDON, December 4.—Declarations that the Allies have no thought of peace under present circumstances, but are determined to fight the war through until the cause of the Allies had won completely, were made in two parliaments yesterday. Bonar Law, former leader of the Unionists and now secretary of state for the colonies in the coalition cabinet, speaking in the name of the British government and Baron Sonnino, minister of foreign affairs in the Italian cabinet, speaking for Italy.

Italian Stand Reiterated.
Baron Sonnino reiterated the Italian stand against any separate peace, stating that Italy had adhered to the general agreement of the Allies to stand firmly together until the war had been either lost or won, refusing either to enter into any diplomatic conversations on the question of peace or to conclude any treaties of peace individually.

"Italy will adhere to the agreement signed in London, which binds each of the Allies not to conclude any separate peace with all or any one of the enemy," he announced. "Italy is determined to continue this war vigorously with all her forces until the sacred aspirations of the nation have been reached and realized, facing any sacrifice that the struggle to the end may involve."

Enemy Must Be Beaten.
Bonar Law, speaking in the British house of commons in regard to the various suggestions for peace that have been advanced, declared that the government and the nation are unresponsive to any talk of peace and are bent firmly on waging the war until the enemy is beaten. Despite the reverses on land, the Allies are not beaten, he stated.

"It is useless to believe that Germany will relinquish Belgium, Serbia, Poland and Alsace until the Teutons are beaten," declared the minister. "It is the feeling here that men and munitions will finally win for the Allies and the advocates of peace are dwindling."

AMBASSADOR PENFIELD REPEATS HIS REQUEST

Austrian Government Slow With Answer To Washington

(Associated Press by Federal Wireles.)
VIENNA, December 4.—Ambassador Penfield, acting under instructions of the American state department, yesterday repeated his request to the Austrian government for the details of the sinking of the Italian liner Ancona, early in November, through which a number of American citizens lost their lives.

The American ambassador presented his first request for a statement of the Austrian side of the affair the same week the Ancona was sunk, at which time Ambassador Page, at Rome, was instructed to secure an official statement from the Italian government.

The Italian reply was given several days ago, as yet Ambassador Penfield has received no communication from the Austro-Hungarian government regarding the Ancona incident.

Conglomerate Aggregation of Pacifists Includes Moving Picture Makers

ENTENTE PACT WILL BE KEPT

(Associated Press by Federal Wireles.)
NEW YORK, December 4.—The "peace mission" which sails from this port for Europe on Saturday to visit the capitals of the neutral nations of Europe in the cause of peace, will include one hundred and fifty persons, of whom twenty are employees of Henry Ford, at whose expense the mission is being undertaken and who will head the party.

Power than half the total number are peace delegates, these numbering sixty-three in all. There are nearly as many press correspondents and special writers in the mission as there are pacifists, the number of newspaper men and other correspondents being fifty-four.

Three representatives of moving picture concerns are included in the party and arrangements are made to film everything that happens. These, with the twenty selected men from the Ford shops, make up the delegation.

William Jennings Bryan will join the party at The Hague soon. The peace makers will spend six weeks in all on their trip, while Ford announces that he personally will stay "until peace is restored, to bring about which I am prepared to spend any amount of money."

Yesterday, Mr. Ford made his will and arranged his business affairs for an extended stay abroad. He announced that he intends to visit both England and Germany, but will enter these countries as a business man and not as a delegate for peace.

Great Northern To Go To 'Frisco In Less Than 4 Days

Mail will be carried regularly by the Hill steamer, Great Northern between the Islands and the Coast. Definite information came to the postoffice yesterday morning that the second assistant postmaster general had authorized despatches by ships of the Great Northern Pacific Steamship Company between San Francisco, San Pedro, Hilo and Honolulu and return.

This will give Honolulu a mail service unsurpassed anywhere now, and in peace times only by the great Cunard line. The first despatch will go in the San Francisco, but this will be cut on the first voyage, it is said on excellent authority, to probably three days and eighteen or twenty hours. Reports from the coast had been, long before the steamer sailed, that on her first homeward voyage she would set a mark for almost any liner in the world to shoot at.

If the Great Northern goes to San Francisco in three days and eighteen hours she will average twenty-three and one fourth miles an hour. An even four days' run would mean twenty-one and three fourths miles an hour. She came here from San Francisco in February, in four days, ten hours and forty-three minutes, the record.

The Transatlantic record was made by the Cunard liner Mauretania September 11-13, 1910, from New York to Queens town, 264 miles, in four days, ten hours and forty-one minutes. The Mauretania, however, has much more speed, having made 27.94 miles an hour for one day, 676 miles. This was in January, 1911.

It is not considered at all probable that there will be any serious attempt to continue such a fast run to the coast. The average down will not exceed twenty miles an hour. On the last day out from San Pedro to Hilo the speed was cut to about seventeen miles so she would not arrive too much ahead of time. She could have got to Hilo Wednesday, had it been desired.

Mail also will be carried between San Francisco and San Pedro and Hilo will despatch to Honolulu in the steamer. The mails from the Coast will be only average in time or less than average as the schedule is six and one half days out that we could get to Hilo.

London Explains To Ambassador Page That Taking Over Is Temporary Proceeding

(Associated Press by Federal Wireles.)
WASHINGTON, December 4.—Confirmation having been received from London of the admiralty order requisitioning the steamer Hooking for government use, although the case of her seizure has not yet come before the prize court even, Secretary of State Lansing yesterday cabled instructions to Ambassador Page at London to enter an immediate and a strong protest in the name of the United States, denying the legality of the seizure and questioning the use to which the vessel is to be put before the American government and her owners have been allowed opportunity of appearing before the prize court.

Another Requisition Made.
The British government has officially confirmed the report telegraphed here by American Consul-General Jones at Halifax, into which port the British cruiser which seized the Hooking took her as a prize. Consul Jones stated that the Hooking had been taken over by the British government for admiralty use.

In addition to the requisitioning of the Hooking, the British admit that they have requisitioned the Genesie, also owned by the American Transatlantic Company and flying the American flag at the time of her seizure, which obtained American registry under the same circumstances as the Hooking.

Proceeding Only Temporary.
In admitting that both vessels have been requisitioned in advance of any disposition of their cases by the prize court, the British admit that the taking over of the steamers is a temporary proceeding only and something that does not prejudice the right of the owner to fight his cases before the prize court, nor secure the immediate return of his vessels if the decision of the prize court does not uphold the British admiralty's contention that the ships were illegally under American registry and liable to seizure as the ships of an enemy.

Justified By Admiralty.
The reply of the admiralty justifies the seizure of the ships and the temporary use that is being made of them, quoting incidents similar in effect which the United States claimed to be lawful during the time of the Civil War.

FIVE MEN ARRESTED FOR ALLEGED USURY BY CITY ATTORNEY

'Loan Shark' System in Full Bloom Apparently Has Been Uncovered Here

ANOTHER SIMILAR INSTANCE

(Associated Press by Federal Wireles.)
A full grown "loan shark" system, combining all the sneaky features of the mainland "skinners" with a few local attributes that even the mainlanders have not the gall to employ, has apparently been uncovered by the city attorney's department.

The fact became known yesterday morning when warrants for the arrests of John Vivichaves, real estate agent and land appraiser; William L. U. Peterson, notary public; William E. Wayman, manager of the Hawaiian Collection Agency; L. Ayau, proprietor of the Ayau Shoe Company, and Ed Markle, motorman with the Honolulu Rapid Transit Company, were sworn out and served. The warrants charge usury.

Four of the five men arrested have offices in the Magoon building, on Alakea and Richards streets. Drastic Action Is Taken.

The alleged "loan sharks" have been in operation for the past year, dealing principally with policemen, firemen and laborers employed by the city. The warrants were sworn to by Deputy Attorney William T. Carden in Judge Ashford's court.

Complaints have been coming into the city attorney's office from time to time, alleging that men in the employ of the city are constantly being stung by the system employed by certain "loan sharks," said Mr. Carden yesterday.

In presenting the first of the evidence to Attorney Carden, which was that of a man who had only been able to draw one dollar from his month's salary, City Attorney Brown instructed him to make a complete investigation.

"I want you to go after these men as hard as you possibly can, and I want every man connected with a scheme such as this to be lodged in jail, no matter who he is," he told his deputy.

Some Cases Are Cited.
Mr. Carden then began piling up the evidence which resulted in the arrests. In one case Vivichaves is reported to have loaned a man thirteen dollars in February of this year. The borrower paid back eight dollars of the loan, but when the bill was presented to the unfortunate a few days ago, with interest compounded, the man owed a balance of \$76.30.

Another man borrowed ten dollars in January, and when he went to settle his loan in March of the same year, he found that he owed forty dollars.

The men under arrest are said to be charging as high as ten to twenty per cent for fifteen to twenty days and forty per cent per month.

Fourteen warrants have been issued against Vivichaves, who seems to be the ringleader of the lenders. Wayman has two warrants against him and the rest one apiece.

The bail in the case of Vivichaves was set at \$3500, Wayman \$500 and the others \$1000 each.

Bond was furnished for the alleged "loan sharks" late last night. Most of the security was given by J. Alfred Magoon.

KAHOOLAWE ISLAND MAY BE FORESTED

Reporting to the board of agriculture and forestry, Territorial Forester C. S. Judd says that Kahoolawe already looks better now than most of the goals have been killed. He said:

"In company with Commissioner H. M. van Holt I visited the Kahoolawe forest reserve from October 8-11. Then Low kindly took us over to the island in his launch and furnished riding horses and other accommodations while on the island."

"The island has been greatly benefited by the recent heavy rains, which have made the pili grass and native woods such as ilima and ahulua grow tall and rank, and by the reduction of stock which has enabled the algalapa trees and herbage to get a good start."

These young trees have started in almost every situation on the island where the pili grass grows, and if they are not injured in any way, they promise to become quite a forest. A part of the top of the island is still bare red dirt, but if all stock is removed from the island, it is my belief that the grasses at least will encroach on the barren land.

"Several dozen highland ironwood trees, which Mr. Low planted on the upper part of the island at an elevation of 1200 feet in April, 1912, are well established and growing nicely, and in the same region the forage grass, which he set out, is spreading rapidly over a large area and promises to be a good soil-binder. It is estimated that there still remain on the island approximately three hundred wild goats and seventy-five semi-wild sheep. Definite plans for the removal of these are now being formulated."

Entente Powers Regard Situation in Greece As Unsatisfactory and While It Continues They Cannot Feel Secure

(Associated Press by Federal Wireles.)
LONDON, December 4.—While there are no official confirmations of the news that the Russian advance against Bulgaria by way of Bumania, it appears to be taken for granted in all the capitals that the Slav advance has begun and that the Russians, under General Kuropatkin, are rapidly getting within striking distance of the Bulgars and their German reinforcements along the Danube.

Based upon this attack from the north against the line of communication just opened with Turkey, the Teutons and their allies are slowly developing the second phase of their Balkan campaign. Invaders in New Movement.

It is expected that the Germans, under Field Marshal von Mackensen, will be diverted almost altogether into Bulgaria, to hold the line there against the Russian onslaught, while the Southern Bulgarian army, released from activity against the Serbs, will be concentrated in the Vardar valley in an attempt to drive the Anglo-French from their positions across the valley and into Bulgaria.

The Austrians are expected to confine their campaign to an attack upon the Montenegrins, invading Montenegro for the purpose, while Austrians not needed for this campaign will be withdrawn and sent to strengthen the line on the Italian border.

No Germans For Gallipoli.
The reports current in France that Germany intends to send a force to the Gallipoli, to help the Turks, is not credited here, it being the belief that Germany cannot spare any troops except for Bulgaria.

A special despatch to the Telegraph from Salonika last night says that the situation in Greece is felt to be very unsatisfactory.

"The uncertainty as to the status of Greece must not be allowed to continue," says the Telegraph's correspondent. "While it continues there can be no feeling of security amongst the Allies troops in Serbia and there can be no progress made unless some new factor enters into the situation."

The correspondent states that the cold in the Vardar Valley is intense and the advanced troops have been withdrawn, the Allies concentrating and preparing quarters.

The unexplained hesitancy on the part of the Bulgarians in occupying this city, from which the Anglo-Serbian force had been withdrawn, was taken as in part confirmatory of the reported Greco-Bulgar agreement.

GRAECO-BULGAR PACT IS NOT CONFIRMED

PARIS, December 4.—Reprints published in the local newspapers yesterday that Greece and Bulgaria have concluded an alliance whereby Greece will participate in the war on the side of Bulgaria and the Central powers, to a degree in exchange for sections of Macedonia of which Monastir is the center and the southern end of the Vardar Valley, received an implied contradiction last night when it was officially announced from Salonika that the Bulgars had marched into and occupied Monastir at three o'clock on Thursday afternoon.
